Summary of Proposed Externship

1. Provide a one-paragraph summary of what project or job responsibilities you would like to undertake with your externship host organization, and the types of academic, employability and technical skills you would like to focus on.

2. What type of involvement have you had with business and industry, including (but not exclusive of) manufacturers?

(continued)

3. How will a teacher externship strengthen teaching and learning about manufacturing practices in your classroom?

4. What do you hope to learn by participating in an externship?

5. Have you thought about what type of work-based learning project you will introduce to your students, and if so, what?

6. What course (or courses) that you presently teach (or plan to teach) will benefit from the development of your work-based learning project?

7. How do you plan to share your externship experience with your colleagues?

8. What is your summer availability? (Please list dates.)

9. Do you have a specific company in mind where you would like to conduct your externship (please provide contact information). If not, CBIA will work with you to find a host company.
